

August, 2002

To Whom It May Concern:

Intel is pleased to confirm that as of the date of this letter, ProNet Computers is an Intel® Premier Provider Program Member.

Intel Premier Providers are qualified, trained and tested experts capable of assisting with their customers' technology needs. Intel Premier Providers are "solutions-oriented" companies, preferred by Intel to provide customers with today's complete technologies - including PCs, servers, networking and e-Business solutions.

Entry criteria and membership requirements of the Intel Premier Provider Program include:

- Active participation in an Intel channel membership program
- Demonstration of ability to design, implement and manage an e-business solution built on Intel Internet building blocks
- Continued commitment to attend Intel training

In return, members of the Intel Premier Provider program have access to key information and support from Intel, designed to translate into better technical customer support, both before and after sales.
